

Company profile

INTERSECURITY[®], comprising the two companies INTERSECURITY[®] GmbH & Co. KG, based in Munich, and INTERSECURITY[®] Solutions GmbH & Co. KG, based in Munich and Braunschweig, advises and supports its customers on the implementation and optimization of networked IT architectures and security solutions, including the development of custom software.

INTERSECURITY[®]'s customers include renowned companies in particular from the banking, insurance and automotive industries, the public sector, and the fields of telecommunications and B2B and IT services.

Eduard Huber is the founder and CEO of both INTERSECURITY[®] companies. Together with his management team, he is responsible for the development of the (Software), (Protection) and (Identity) business divisions. In its business divisions, INTERSECURITY[®] offers its customers a broad portfolio of services, ranging from analysis, consulting, design and development through to implementation, support and testing of IT systems and applications.

INTERSECURITY[®]'s management and employees are committed to partnerships with customers based on fairness, integrity and discretion.
