

Privacy statement

INTERSECURITY® website

Thank you for visiting our website and for your interest in our services. INTERSECURITY® takes the protection of personal data very seriously. We have therefore implemented technical and organizational measures that ensure that we and our external service providers meet the applicable provisions relating to data protection.

Personal data

All data obtained via these web pages (e.g. company name, your name, address data, telephone numbers and so on) is saved and processed solely for the purpose of providing individual support, sending product information and/or providing service offers. We assure you that your information will be treated confidentially and that the German data protection provisions are observed.

Encrypted emails are possible for email communication with INTERSECURITY®. If you have any questions on sending encrypted emails, we will be happy to help. Contact us at: info@intersecurity.net.

Technical data

When you access our website, data that could be used for identification (e.g. IP address, date, time, viewed pages) is stored on our servers for backup purposes. The IP address is not used for identification, and neither personal nor identifiable user profiles are created. We reserve the right to perform statistical analyses of anonymized data.

For technical reasons, the following data transferred from your internet browser to INTERSECURITY® is recorded:

- Browser type and version
- Operating system used
- Website from which you accessed us (referrer URL)
- Webpage you visited
- Date and time of access
- Your internet protocol (IP) address

This anonymous data does not enable us to infer specific individuals.

Cookie handling

We use cookies to recognize users who reuse our site. Cookies are small text files that your internet browser stores and saves on your computer. If you access our website again, these cookies provide information (e.g. IP address, date, time and pages viewed) so that you are identified again automatically. The information obtained in this way is used to optimize our offering and to provide you with easier access to our website as a registered customer.

You can block cookies on your hard disk by choosing "Block all cookies" in your browser settings.

Self-information

On request, you are provided with information on the data saved about you. You can request this information via the following email address: info@intersecurity.net.
